car wash. This special permit request is to allow the sale of alcoholic beverages from the convenience food store for consumption off the site.

**1. SPECIAL PERMIT REQUIREMENTS PER LMC 27.63.685:** Alcoholic beverages may be sold for consumption off the premises in the B-1, B-3, H-1, H-2, H-3, H-4, I-1 and I-3 zoning districts upon the approval of a special permit. A special permit for such use may be granted subject to the requirements of the respective districts, all applicable ordinances, and the following conditions, which can be waived by the City Council:

**(a) Parking shall be in accordance with Section 27.67.020 of the Lincoln Municipal Code.**

The parking provided appears to comply with the requirements of LMC Section 27.67.020. However, as noted in the Public Works and Utilities Department review, the site plan must be amended to show the required dimensions for parking spaces and drive isles.

**(b) The sale of alcoholic beverages for consumption off the premises shall not be permitted without issuance of a permit under Section 27.63.680 of this code.**

This application is for a special permit to allow for sales of alcohol for consumption off the premises, and must be approved before sales are authorized.

**(c) The licensed premises of any building approved for such activity must be located no closer than 100 feet from a day care facility, a residential district or residential use, or, if a lesser distance, must mitigate any adverse effects of the reduction in distance through landscaping, screening, or other methods approved by the Planning Director.**

There are no day care facilities, residences or residential districts within 100' of the premises. The nearest residential district is to the southeast across I-80 in excess of 1,000' away.

**(d) Any lighting on the property shall be designed and erected in accordance with all applicable lighting regulations and requirements.**

Any new lighting will be required to comply with the Design Standards for parking lot lighting (Chapter 3.45, Section 3.8).

**(e) Vehicle stacking for a drive-through window used as any part of the permitted business operation shall not be located in any required building setback from a residential district.**

A drive-through window is not shown as part of the convenience food store.

**(f) The use shall not have any amplified outside sound or noise source, including bells, buzzers, pagers, microphones, or speakers within 150 feet of any residential district. This shall not apply to sound sources audible only to the individual to whom they are directed, such as personal pagers, beepers, or telephones.**

No such devices are proposed with this special permit. Nearest residential district is in excess of 1,000 feet away.

**(g) No access door to the business, including loading or unloading doors, shall face any residential district if such doors are within 150 feet of the residential district. This shall not apply to emergency exit doors required by building or safety codes. No door facing a residential district shall be kept open during the operation of the establishment.**

The front door does not face a residential district. The nearest residential district is in excess of 1,000 feet away.

**(h) Vehicular ingress and egress to and from the property shall be designed to avoid, to the fullest extent possible as determined by the City Council, disruption of any residential district. Particular attention shall be given to avoiding designs that encourage use of residential streets for access to the site instead of major streets.**

Access to this site is provided off of Northwest 12<sup>th</sup> Street, and there are no residential streets in this area

**(i) All other regulatory requirements for liquor sales shall apply, including licensing by the state.**

**(j) The City Council may consider any of the following as cause to revoke the special permit approved under these regulations:**

**(1) Revocation or cancellation of the liquor license for the specially permitted premises; or**

**(2) Repeated violations related to the operation of the permittee's business.**

**Planning Commission review and City Council approval is required for this use.**

**2. POLICE RESPONSE:** The Police Department has no objections to this special permit request.

**3. PUBLIC WORKS RESPONSE:** In addition to noting the lack of parking space and drive isle dimensions, the Public Works and Utilities Department review includes the advisory comment that a permit is required for the demolition of existing curb as shown on the site plan. Otherwise, no objections are stated.
